one in tomorrow.

The severity of the fighting in which the Canadian first expedionary division has been engaged is indicated by the large casualty tists. The reports state that the Canadians were engaged in severe righting throughout Saturday, April 24, and that the fighting is

ighting throughout Saturday, April 33, 200 years, which was lost on Thursday or Friday and afterwards retaken by the Canadians, was not located behind the lines of Canadian infantry, but behind the French lines, immediately to the left of the Canadian rear. The French were driven from their position by asphyxiating bombs, the reports declare, and forced back over the Canadian battery in their rear. The pieces were so heavy that they could not be moved by horse faster than a walk. It was, therefore, found necessary to abandon them. When the Canadian division learned that its heavy battery was in the hands of the Gernans, a determined effort to recover the guns was immediately made. The guns were brought off bandon them. We was in the hands of the German cover the guns was immediately made, and many German prisoners with them.

The Canadians have been in it again, and Sir John French speaks to their conduct. If the Dunision is not represented at the front proportion to its population the fault is neither a heak of quantity or quality in the available supply and an advantage of the contractors.

But the government started it. The Liberals have to answer for refusing to allow the government to steal an election muder the same particitie guise as their henchmen robbed the way the

their henchmen routes are chest.

The Journal says the Liberals had no baselines reperting for a cleation, because though the government was preparing to spring an election the Journal was protesting against it. The offence of the Liberals consists in estimating protest at face value.

Conservative members of parliament were speakers at a Toronto meeting held to start a movement to dissuade the government helding a general election during the war. To be consistent their news peaper friends will now have to eithe war. To be consistent their news peaper friends will now have to eithe deep the decision of the decision pers supporting the government om unable to comprehend.

Like most western, and some eastern, cities Edmonton is faced by the necessity of reducing the assessment. But the advisory committee do not suggest any rad-ical reduction. That is well. Though the readjustment is ne-essary it is better to not make cessary it is better to not make too sweeping a cut at one time. That would shake public conflic-ence in the values of property, and perhaps precipitate a slaugiter. When all is said, Edimonton pro-not so much as we thought at one time, but the exaggeration here has been no greater than clear where. The artificial value alous be written off if we are to get way that would discount the real value in the public estimation.

The linaue committee of the central want a committee of the central want a committee of eithers summed to investigate the working of the street railway and other utilities. This at least is different. Hereisfore when we have had any investigating to be the committee of the lapse of months got a report which mobile yunderstood and a bill which builted larger than the results. Attorney General Bowser is anxious to demonstrate in British Columbia polities that it pays to trade horses before trying to cross the stream of a general election.

It is a good guess that the Dominion elections will be brought on before the graft trials have ex-posed the war purchase robberies in all their ramified relationships.

Decrease in the assessment does of of course mean decrease in the amount of the tax bill. That an only be cut down by comonly in the part of the city coursel and the part of the city coursel and sight. Wishon has done to the C.

The "war" taxes would be more truly called campaign fund taxes. A good deal of the pro-eads will be needed to make up what the political henchmen of the ministers got away with, and none of it goes to the war fund.

The comptroller says the First street market is about out of busi-ness. Everyone who has vide the seene of desolation can attest the truthfulness of his remarks. As matters stand the ratepays of the city have paid for two ma-ket sites and a pretentions—and costly market building, and have no market.

Ferguson appears to be the clumisest seandal-maker the government has yet got hold of the accuses Governor Brown, of Saskatchewan, of having sold land to the provincial government, land which the government considerable to the provincial government, and on which the government and on which the government and on which the set of the provincial season of the set of the provincial season of the season of the

by British War Unice—rieavy Casuaties Sustained.
London April 24, 12-4 p.m.—The war office today gave out the following official note: a few properties of the following official note: a few properties of the following official note: the following official notes of the few properties of the part of the line laid bare the left of the Canadian division, which was forced to fall back in order to keep in tonch with the right of the neighboring troops.

"In the rear of the latter had been four Canadian 4.7 goas which thus passed into the hands of the enemy. But some hours later the Canadians made a most brilliant and sticeses ful advance, recapituring these guess and taking a considerable number of termans.

"The Canadians had many easualties but their gallentry and determination undoubtedly saved the situation. Their conduct has been magnificent throughout."

Winnipeg, April 24—A local paper publishes the following special cable from London:— "It's unofficially reported here this morning that Gen. French says the casualties in the terrific conflict in which the Canadians took part, near Landpenarca, are the haviest in any coggardistic since the beginning of the war. There is nothing definite enough in the report from the front to determine which regiments of the Can-adian division participated in the battle.
